

## Fused Silica Tubing Cutters

We offer a precision cutter for fused silica tubing — SGT's Shortix™ Cutter (FS-315). This cutter ensures clean, trouble-free cutting of fused silica tubing, providing better cuts than any other product on the market. It also includes a built-in magnifying glass to examine the cut tubing ends. Order the FS-315-02 Maintenance Kit, as needed, to replace a worn or damaged cutting wheel.

**FS-315**  
for fused silica tubing

When using traditional fused silica tubing cutters, only a small part of the tubing wall is scratched, then the tubing is snapped or pulled in two, often resulting in a jagged, uneven cut. With a Shortix Cutter, a clean cut is made every time, regardless of skill or experience, as the cut is made by rotating a diamond blade around the entire circumference of the tubing.

*Please Note: The FS-315 Fused Silica Tubing Cutters are designed to cut only tubing with ODs of 350 μm–780 μm and IDs of 100 μm–350 μm.*

## Polymer Tubing Cutters

► For 1/16", 1/8", 3/16", 1/4", and 5/16" OD tubing

A flat, 90°, burr-free cut is difficult to obtain with most commercial polymer tubing cutters. Upchurch Scientific® has designed several tubing cutters specifically to cut polymer tubing. This line of tubing cutters includes a standard cutter for 1/16" and 1/8" OD tubing (A-327), and another for large bore tubing (A-329). Each has guide holes to ensure precise cutting. These cutters are durable, reliable, and easy to operate. Five replacement blades are included with each tool.

**A-327**  
for 1/16" and 1/8" OD tubing

**A-329**  
for 3/16" - 5/16" OD tubing

### NOTE

- The A-350 Capillary Polymer Tubing Cutter can be used to cut tubing OD sizes other than 360 μm, 510 μm, and 1/32". Simply use the proper NanoTight™ Tubing Sleeve found on page 17. Please note, however, that these sleeves are shorter than those listed on this page, and therefore will last through fewer cuts.
- Our tubing cutters are material specific: the A-327, A-329, A-350, and A-370 should only be used to cut polymer tubing, where as the FS-315 should only be used to cut fused silica tubing.

## Capillary Polymer Tubing Cutters

The Upchurch Scientific A-350 Cutter is designed to cut capillary-sized polymer tubing. The cutter makes clean, perpendicular cuts without collapsing thin capillary walls. A set of ten tubing sleeves, required for cutting, are included with each cutter, along with five replacement blades. The included tubing sleeves are for cutting 360 μm OD polymer capillary tubing. Alternative sleeves are available for cutting 510 μm and 1/32" OD tubing. All tubing sleeves are 2" long and are made of DuPont® FEP.

Upchurch Scientific introduces a new tubing cutter specifically for cutting 2.0 mm OD polymer tubing. The A-370 tubing cutter is designed to cut in a similar method to the A-350 capillary polymer tubing cutter. The tubing slides through the cutter and the knob is rotated to spin the tubing as the razor blade circumscribes the tubing, providing a very clean, perpendicular cut.

Part No.	Description	Qty.
<b>FUSED SILICA TUBING CUTTERS</b>		
<b>FS-315</b>	Shortix Fused Silica Tubing Cutter	ea.
<b>CAPILLARY POLYMER TUBING CUTTER</b>		
★ <b>A-350</b>	Capillary Polymer Tubing Cutter* for 360 μm–1/32" OD tubing Includes (1) F-262x 10-pack of sleeves and (1) M-438-03 wrench	ea.
<b>F-262x</b>	Replacement Sleeves for A-350, 0.0155" ID, Green, for cutting 360 μm OD tubing	10-pk
<b>F-264x</b>	Alternative Sleeves for A-350, 0.021" ID, Natural, for cutting 510 μm OD tubing	10-pk
<b>F-267Bx</b>	Alternative Sleeves for A-350, 0.033" ID, Blue, for cutting 1/32" OD tubing	10-pk
★ <b>A-327</b>	Standard Polymer Tubing Cutter* for 1/16" and 1/8" OD tubing	ea.
<b>A-329</b>	Large Bore Polymer Tubing Cutter* for 3/16"–5/16" OD tubing	ea.
<b>A-328</b>	Replacement Blades for A-350, A-370, A-327 and A-329	5-pk
<b>A-370</b>	Polymer Tubing Cutter* for 2.0 mm OD tubing	ea.

\* Includes (1) A-328 5-pack of replacement blades.
